### Run report run 2160 - Hot 4 Male/Tyson

Hey, Sherlock can you write the run/walk report? asks Pick-up, right says I, WRONG, Sherlock and run/walk can't be used in the same sentence, stagger maybe.

Runners report

*Editor writes* – runners out the gate and follow trail. No mention about a D/stop or how long it is?

Was mentioned, the run was 6.5 Km long.

Walkers report

*Editor writes* – walkers out the gate and follow trail, don't get lost.

Pub report - schooners \$4.80 at RSL

Nosh report - Garlic Elmer Fudds and Bar B Q stuff (definition of a bar b q, 6 blokes outside a barber's shop)

Speaking of barbers now **Streaka** knows why Ewok's work is **Multicum**.

Well done hares, a top night, again.

ON - ON **Sherlock**.

What is the difference between an angry circus owner and a Roman barber?

One is a raving showman and the other is a shaving Roman.

**Why do bald-headed men never use keys?  
Because they've lost their locks.**

This eighty-year-old couple were celebrating their 60th anniversary and the wife says to her husband, "Honey, let's get stark naked and sit at the dinning table and eat our dinner!" As they sat at the dinning table the wife says, "Honey I am beginning to get very hot and very aroused!" The husband says, "That is because you have your tits in the soup!"

Barber: And how old are you, little man?  
Fred: Eight.

Barber: And do you want a haircut?

Fred: Well, I certainly didn't come in for a shave!

**Helium walks into a bar. The bar tender says, "We don't serve noble gasses in here." Helium doesn't react.**

A neutron walks into a bar. He asks the bartender, "How much for a beer?" The bartender offers him a warm smile and says, "For you, no charge".

**Q: Why did the chemist sole and heel his shoes with silicone rubber?**

**A: To reduce his carbon footprint.**

**Q: If H<sub>2</sub>O is water, what is H<sub>2</sub>O<sub>4</sub>?**

**A: Drinking, bathing, washing, swimming, etc.**

**You enter the laboratory and see an experiment. How will you know which class is it?**

**If it's green and wiggles, it's biology.**

**If it stinks, it's chemistry.**

**If it doesn't work, it's physics.**

A theory is something nobody believes, except the person who made it. An experiment is something everybody believes, except the person who made it. **Albert Einstein.**
