**NEW CELEBRATION RUN DATES 2-4 OCTOBER  
(LONG WEEKEND)**

## RUN REPORT 2299

We arrived at Knickerless's place a little bit late, Hercules being in COVID-19 isolation times from her joyride in Sydney and back. All the good hashers had already left on the run/walk but thankfully the trailer was open so we settled in for a cold one. I can't tell you about the run or walk, charges, raffles or announcements as I wasn't really paying much attention. Didn't know the GM was going to make me the scribe. Anyway, all in all it was a good night.

On On CatBlew signing off from Cairns

Did you ever wonder why there are no dead penguins on the ice in Antarctica? Where do they all go?

Wonder no more!

It is a known fact that the penguin is a very ritualistic bird and lives an extremely ordered and complex life. Penguins are extremely committed to their family and will mate for life, as well as maintain a form of compassionate contact with their offspring throughout the remainder of their life.

If a penguin is found dead on the ice surface, other members of the family and their social circle have been known to dig holes in the ice, using only their vestigial wings and beaks, until the hole is deep enough for the dead bird to be rolled into, and buried.

After packing the ice back in the hole, the male penguins then gather in a circle around the fresh grave and sing:

***"Freeze a jolly good fellow."***

***"Freeze a jolly good fellow."***

You really didn't believe that I know anything about penguins, did you? It's so easy to fool OLD people.

## WINE PAIRING IN THE STONE AGE

**"Simple rule of thumb; if it tries to eat us, serve with red. If it runs away from us, serve with white."**

**Ever cut your nails to short?**

How LONG is this social distancing thing supposed to last? My husband keeps trying to come into the house.

Having some states lock down and some states not lock down is like having a peeing section in a swimming pool.
