NEW CELEBRATION RUN DATES 2-4 OCTOBER (LONG WEEKEND)

RUN REOPRT 2301

The Hilly Hill Hills run at the Anglicare building on Denham street.

At 6 O clock on the dot the old church bell chimed at St James Cathedral to set off the large pack of 55. Well timed **Tool Squeezer!** The runners went left and the walkers right up the hill. Steeping climbs and descending roads; **Slash** don't get us lost! Ascending climbs led by fantastic city views. Up and up we go to retrieving a well-deserved drink stop at Old Hasher **Quack's**. Quack, Quack! Traditional Port and wine always hits the spot.

Onwards and upwards to the Victoria St Bridge, we've lost half the pack as they couldn't quite hack it. Finally weaving our way back through the hidden roads of old and new, there awaits the trailer in high demand!

Some high-quality gas bagging and low-price piss to guzzle is what it's all about. **GM** yells circle and everyone sort of packs around. **VIRGINS VIRGINS** and more **VIRGINS** are called up to down down. Some charges were thrown around and raffles were won. POW was passed on to **Azaria** as it's been 40 years since the dingo took that baby. Another video for **Homo**. Hip Hip Hooray!

Nosh was highly delicious and not at all underrated. Thanks Gash, very tasty. As the pack dwindled down it was time to gather around the fire built by Tool Squeezer, feet and all!

Onwards and upwards to next week.

On On Orgasm

NEWS: HARLEY
DAVIDSON
SPEAKS ON
DECLINING BIKE
SALES

The reasons for the slump in sales at HD are not President Trump's fault. Apparently the Baby-Boomers all have motorcycles. Generation X is only buying a few, and the next generation isn't buying any at all.

A recent study was done to find out why Millennials don't ride motorcycles:

1. Pants won't pull up far enough for them to straddle the seat.

2. Can't get their phone to their ear with a helmet on.
3. Can't use two hands to eat while driving.
4. They don't get a trophy and a recognition plaque just for buying one.
5. Don't have enough muscle to hold the bike up when stopped
6. Might have a bug hit them in the face and then they would need emergency care.
7. Motorcycles don't have air-conditioning.
8. They can't afford one because they spent 12 years in college trying to get a degree in Humanities, Social Studies or Gender Studies for which no jobs are available.
9. They are allergic to fresh air.
10. Their pyjamas get caught on the exhaust pipes.
11. They might get their hands dirty checking the oil.
12. The handle bars have buttons and levers and cannot be controlled by touch-screen.
13. You have to shift manually and use something called a clutch.
14. It's too hard to take selfies while riding.
15. They don't come with training wheels like their bicycles did.
16. Motorcycles don't have power steering or power brakes.
17. Their nose ring interferes with the face shield.
18. They would have to use leg muscle to back up.
19. When they stop, a light breeze might blow exhaust in their face.
20. It could rain on them and expose them to non-soft water.
21. It might scare their therapy dog, and then the dog would need therapy.
22. Can't get the motorcycle down the basement stairs of their parent's home.

I went to the psychiatrist today. She told me I had a split personality and charged me 160 dollars.

I gave her 80 dollars and told her to get the rest from the other idiot.

I see people around my age mountain climbing - meanwhile, I feel good getting my leg through my underwear without losing my balance
