Run Report 2474 – Black-n-Decker & Betty Barefoot – Kitchener Rd, Pimlico

Six pm and *B&D* jumped up on the trailer and sent us all on our ways. Runners had a plethora of falsies, followed the drain near *Dringo's* to the Ambo Station, over to *Bentabeak's* where they tore around the park across the road like a pack of little misfits, and on to the DS at the old fart's carpentry shed at Gill Park.

Trotters shied away from the drain and the park but still ended up at the drink stop at the same time as the runners and walkers, who had basically taken the shortest root. (Not talking about my beloved!) After a refreshing ginger ale we all headed off again. This time the runners headed home via the back of the Mater, trotters via the *Dringo* drain, and walkers via the Centen.

Once home the usual bullshit commenced before the arrival of the traditional supahot pies and saus rolls.

The circle started a little later than usual with the normal GM charges for hares, returnees and absentees, et cetera. *Bot Bot* handed the PoW to *Hotfa*, and *Blow Back* passed the Erectus to *Teaser* without the Firecat (Thankyou Cat Stevens!) Then came the charges from the floor with one getting close to the entire pack up for a drink.

To close the circle the Cash again tossed the coin to decide on the price for next week. After tails came up the first throw, he said, "Best of three," to try to get the price up again – but failed – so it's \$1 this week – yippee – wish I could be here!

Nosh of one rather spicy and one reasonably mild chook dishes was demolished by the pretty good pack. So then it was time to say "Farewell" until next week (which coincides with Full Moon) at *Shatter's* in Cranbrook

As usual, a good night. See you at AGPU/XMAS.
On on, *Blow Back*

1. Law of Mechanical Repair

After your hands become coated with grease, your nose will begin to itch and you'll have to pee.

2. Law of Gravity

Any tool, nut, bolt, screw, when dropped, will roll to the least accessible place in the universe.

3. Law of Probability

The probability of being watched is directly proportional to the stupidity of your act.

4. Law of Random Numbers

If you dial a wrong number, you never get a busy signal; someone always answers.

5. Variation Law

If you change lines (or traffic lanes), the one you were in will always move faster than the one you are in now.

7. Law of Close Encounters

The probability of meeting someone you know INCREASES dramatically when you are with someone you don't want to be seen with.

8. Law of the Result

When you try to prove to someone that a machine won't work, IT WILL!!!

9. Law of Biomechanics

The severity of the itch is inversely proportional to the reach.

10. Law of the Theater & Hockey Arena

At any event, the people whose seats are furthest from the aisle, always arrive last. They are the ones who will leave their seats several times to go for food, beer, or the toilet and who leave early before the end of the performance or the game is over. The folks in the aisle seats come early, never move once, have long gangly legs or big bellies and stay to the bitter end of the performance. The aisle people also are very surly folk.

12. Murphy's Law of Lockers

If there are only 2 people in a locker room, they will have adjacent lockers.

13. Law of Physical Surfaces

The chances of an open-faced jelly sandwich landing face down on a floor are directly correlated to the newness and cost of the carpet or rug.

14. Law of Logical Argument

Anything is possible IF you don't know what you are talking about.

15. Law of Physical Appearance

If the clothes fit, they're ugly.

16. Law of Commercial Marketing Strategy

As soon as you find a product that you really like, they will stop making it OR the store will stop selling it!

17. Doctors' Law

If you don't feel well, make an appointment to go to the doctor, by the time you get there, you'll feel better. But don't make an appointment and you'll stay sick.
